DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-23, drawn to a compound, method of making and composition, classified in class 430, subclass 280.1.
 - II. Claims 24-35, drawn to a method of making a color filter, classified in class 430, subclass 320.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product can be used in a materially different process such as crosslinking polymers by heat to form molded automobile parts or UV degradable objects.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and the search for Group II is not required for Group I, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Mr. Thomas W. McNally and to Mr. Frank DeRosa, upon being informed Mr. McNally no longer was with the firm in question, on March 14, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made. No response to the message left by Examiner Cynthia Hamilton was made by 2:30 pm on March 16, 2005.

Art Unit: 1752

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
